---

January 10, 2000

Thomas Cook is, like most organizations today, in the midst of fundamental change, requiring a complete departure from traditional methods of operation. It was within this environment we asked Jim Clemmer to meet with our senior management to identify the professional and personal changes they as leaders would be making during this transformation. Jim, in his unique style was able to inspire and create the vision -- thank you Jim!

A handwritten signature in blue ink, appearing to read "Mike Rodgers".

Mike Rodgers  
Vice President, Human Resources and  
Business Transformation,  
Thomas Cook Group Americas
